Jean Haymann 90 Jubilee Tourney

The Israel Chess Composition Society is happy to announce a theme tourney celebrating the 90th birthday of Jean Haymann. The theme involves Jean's favorite motives.

Please send entries to the tourney director. **Deadline: July 31, 2022**

Theme: the solutions of a helpmate in two moves must include at least two of the following sibling motives (one motive per solution): Goethard, inversed Goethard, anti Goethard, Gamage.

Tourney director: Omer Friedland omfree@gmail.com

Judge: Ricardo de Matos Vieira

Definitions of those motives, based on H#2, for the need of this tourney and not authoritative:

GOETHARD: the mating move unpins a disturbing black unit which must therefore be obstructed at W1 or B1,B2.

INVERSE GOETHARD: a black unit, indirectly unpinned at W1 or B1,B2, must be obstructed at W1 or B1,B2. Mate must be given by a battery.

ANTI GOETHARD: a pinned black unit stands initially obstructed by W or by black. Solving moves clear its line, thus avoiding a dual battery mate which would unpin it.

GAMAGE: a black unit pinned by WQ must be obstructed since the pinning WQ will move away at W2 to give mate.
